23 March 1956

MEMORANDUM FOR: Project Director of Administration

SUBJECT : Travel Orders

1. Attached is a copy of a recent travel order prepared by Military Personnel Division which includes the name of the Project Director. This, in my opinion, compromises the affiliation of all other personnel listed.

2. It is suggested that henceforth orders for prominent officials of CIA and/or senior project officials be prepared separate from those of other staff personnel, so that an immediate tie-in is prevented between such prominent officials and staff personnel. It may be totally advisable to go so far as to prepare orders originating from some other unit other than the Technical Services Squadron, Provisional.
